## Involuntary Admission: The Power of the Pink Slip by Shelah Rote-Radke

#### Table of Contents:

- 1) Ohio Revised Code 5122.10
- 2) APA and Attorney General Opinion References
- 3) Temporary Detention and Order of Detention Chart
- 4) White slip form
- 5) PinkSlip Mock Up Final Ed
- 6) Blank involuntary admission form
- 7) Case 1 John Smith
- 8) Case 2 Michael Jones
- 9) Case 3 Jane Smith
- 10) Case 4 Jane Doe

#### Objectives:

- 1. Recognize the key elements of the county-wide education initiative on involuntary hospitalization applications
- 2. Understand the legal background, basis, and scope of involuntary admission
- 3. Gain practical knowledge about the involuntary admission process, and potential alternatives.

## 5122.10 Emergency hospitalization.

Any psychiatrist, licensed clinical psychologist, licensed physician, health officer, parole officer, police officer, or sheriff may take a person into custody, or the chief of the adult parole authority or a parole or probation officer with the approval of the chief of the authority may take a parolee, an offender under a community control sanction or a post-release control sanction, or an offender under transitional control into custody and may immediately transport the parolee, offender on community control or post-release control, or offender under transitional control to a hospital or, notwithstanding section 5119.20 of the Revised Code, to a general hospital not licensed by the department of mental health where the parolee, offender on community control or post-release control, or offender under transitional control may be held for the period prescribed in this section, if the psychiatrist, licensed clinical psychologist, licensed physician, health officer, parole officer, police officer, or sheriff has reason to believe that the person is a mentally ill person subject to hospitalization by court order under division (B) of section 5122.01 of the Revised Code, and represents a substantial risk of physical harm to self or others if allowed to remain at liberty pending examination.

A written statement shall be given to such hospital by the transporting psychiatrist, licensed clinical psychologist, licensed physician, health officer, parole officer, police officer, chief of the adult parole authority, parole or probation officer, or sheriff stating the circumstances under which such person was taken into custody and the reasons for the psychiatrist's, licensed clinical psychologist's, licensed physician's, health officer's, parole officer's, police officer's, chief of the adult parole authority's, parole or probation officer's, or sheriff's belief. This statement shall be made available to the respondent or the respondent's attorney upon request of either.

Every reasonable and appropriate effort shall be made to take persons into custody in the least conspicuous manner possible. A person taking the respondent into custody pursuant to this section shall explain to the respondent: the name, professional designation, and agency affiliation of the person taking the respondent into custody; that the custody-taking is not a criminal arrest; and that the person is being taken for examination by mental health professionals at a specified mental health facility identified by name.

If a person taken into custody under this section is transported to a general hospital, the general hospital may admit the person, or provide care and treatment for the person, or both, notwithstanding section 5119.20 of the Revised Code, but by the end of twenty-four hours after arrival at the general hospital, the person shall be transferred to a hospital as defined in section 5122.01 of the Revised Code.

A person transported or transferred to a hospital or community mental health agency under this section **shall be examined by the staff** of the hospital or agency **within twenty-four hours after arrival at the hospital** or agency. If to conduct the examination requires that the person remain overnight, the hospital or agency shall admit the person in an unclassified status until

making a disposition under this section. After the examination, if the chief clinical officer of the hospital or agency believes that the person is not a mentally ill person subject to hospitalization by court order, the chief clinical officer shall release or discharge the person immediately unless a court has issued a temporary order of detention applicable to the person under section 5122.11 of the Revised Code. After the examination, if the chief clinical officer believes that the person is a mentally ill person subject to hospitalization by court order, the chief clinical officer may detain the person for not more than three court days following the day of the examination and during such period admit the person as a voluntary patient under section 5122.02 of the Revised Code or file an affidavit under section 5122.11 of the Revised Code. If neither action is taken and a court has not otherwise issued a temporary order of detention applicable to the person under section 5122.11 of the Revised Code, the chief clinical officer shall discharge the person at the end of the three-day period unless the person has been sentenced to the department of rehabilitation and correction and has not been released from the person's sentence, in which case the person shall be returned to that department.

Effective Date: 01-01-2004

A mentally ill individual may be involuntarily brought to a mental health facility by police or sheriff based on information given by another observer.

Anderson's Ohio Probate Practice and Procedure Section 35.03

"When determining a basis for emergency hospitalization, police or sheriff may rely on statements of observers..."

Ohio Attorney General Opinion 1979 - #79-021

## A psychiatric assessment for involuntary admission must be done in person if it is performed by a psychiatrist:

A psychiatrist is held to a stricter standard of professionalism, and may not allow his or her certification to be used to involuntarily treat a patient without personal examination of the person:

See Section 7, Part 4. *The Principles of Medical Ethics: With Annotations Especially Applicable to Psychiatry.* 2008 Ed. American Psychiatric Association.

 $\frac{http://www.psych.org/MainMenu/PsychiatricPractice/Ethics/ResourcesStandards/PrinciplesofMedicalEthics.aspx}{PrinciplesofMedicalEthics.aspx}$ 

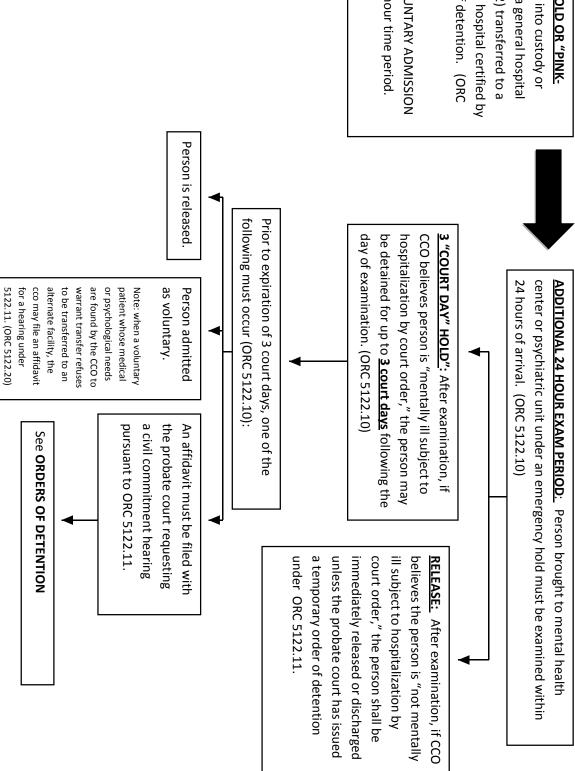

"The psychiatrist may permit his or her certification to be used for the involuntary treatment of any person only following his or her personal examination of that person. To do so, he or she must find that the person, because of mental illness, cannot form a judgment as to what is in his/her own best interests and that, without such treatment, substantial impairment is likely to occur to the person or others."

See also Opinions of the Ethics Committee on The Principles of Medical Ethics: with annotations especially applicable to psychiatry. 2009 Edition, APA. <a href="https://www.psych.org">www.psych.org</a>

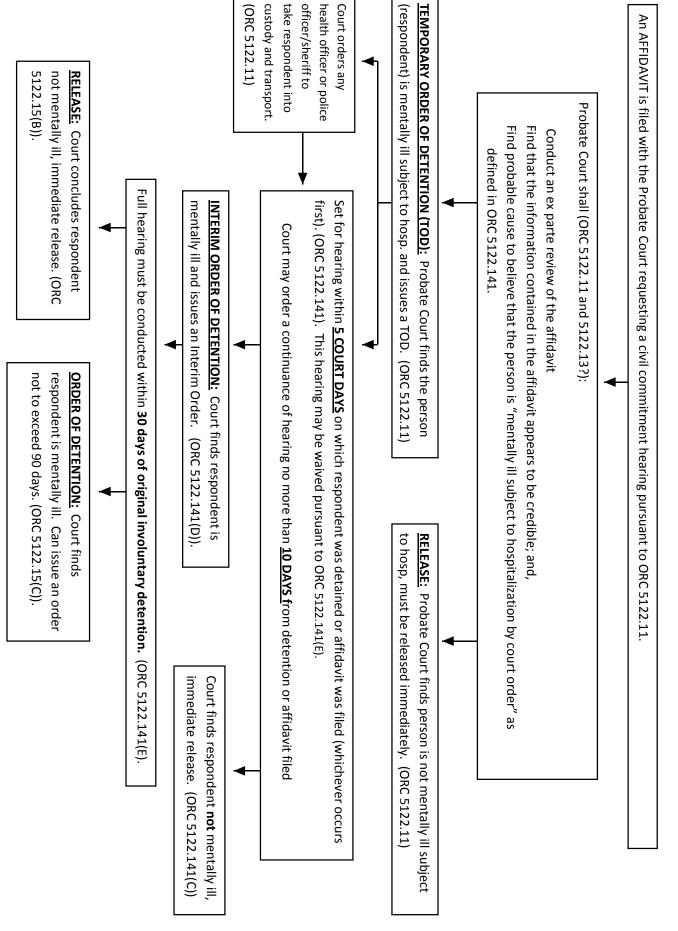

# **TEMPORARY DETENTION:**

**24 HOUR EMERGENCY HOLD OR "PINK- SLIPPING":** Person taken into custody or involuntarily detained in a general hospital must be (1) released or (2) transferred to a mental health center or a hospital certified by ODMH within 24 hours of detention. (ORC 5122.10).

Person MAY sign for VOLUNTARY ADMISSION prior to expiration of 24 hour time period. (ORC 5122.02)

## **ORDERS OF DETENTION:**

#### Lack of Capacity Evaluation (White Slip)

#### **SCOPE**

The lack of capacity evaluation is to be completed by a Medical Doctor, Medical Attending, Medical Resident, Psychiatrist, or Psychiatric Resident to determine a patient's ability to comprehend and make informed choices. The White Slip should be completed whenever a patient attempts to leave against medical advice which would result in significant impairment, injury or death to the patient.or others.

#### **PHILOSOPHY**

The philosophy of University Hospitals is to provide quality care to our patients with medical or psychiatric emergencies. The White Slip will only be used after all other alternatives have been exhausted and the patient represents such a significant risk of harm to himself or others by lacking capacity to make informed decisions regarding his /her care. The White Slip is intended to be used as a communication or evaluation tool for physicians to determine a patient's capacity or lack there of, and to communicate the decision to members of the healthcare team.

#### **DEFINITION**

Lack of Capacity is defined as diminished competence (or ability to make informed decisions) including perceptual disturbances, impaired ability to reason, impaired memory and concentration and impaired emotional integration due to a medical or psychiatric condition. The patient is unable to make decisions or process information and is:

- Unable to repeat back information
- Unable to explain risks and benefits
- Unable to manipulate information
- Pt is inconsistent in thought and thought process

#### **GOVERNING PRINCIPALS**

- Patient wants to leave AMA (Against Medical Advice), but there is substantial risk of complications, which, if not treated, may result in significant impairment, injury or death to the patient or others.
- 2. The patient is assessed for:
  - Psychiatric Symptoms (delusions, hallucination, depression, anxiety, suicide/homicide)
  - Sensorium (alert, cloudy, stuporous, confused)
  - Orientation/Memory (including short term)
  - Judgment/General and Specific to Situation (Does the patient understand the nature of the diagnosis, the risks, benefits and alternatives to the treatment(s) recommended as well as the risks of leaving Against Medical Advice [AMA])
- 3. The basis for wanting to leave AMA and the medical and psychiatric diagnosis are documented.
- 4. The determination is based on the patient's ability to make informed decisions regardless of his or her documented or suspected mental illness.
- 5. A patient who is determined to have diminished decision-making ability is unable to understand and/or appreciate the consequences of decisions related to his/her refusal of care should be admitted to or remain in the Hospital to receive or continue treatment.

- 6. If transfer to an inpatient Psychiatric Unit is clinically indicated, an Application for Emergency Admission (Pink Slip) may be filled out no earlier than 24 hours before transfer.
- 7. The evaluation for the determination of lack of capacity can be made by the Physician/Attending, consulting Psychiatrist/Psychologist, House Officer/Resident Physician or Physician Assistant.
- 8. The White Slip document must be completed, signed, dated, timed and pager number provided.
- 9 The White slip is the first form in the chart behind the DNR order.

admission or transport. Writers may be subpoenaed as a result of their testimony.
